EXECUTIVE SUMMARY

Results-driven Website Developer and SEO Expert with over three years of extensive hands-on experience in crafting visually captivating, user-centric websites that consistently achieve high rankings on major search engines. Proficient in JavaScript, Python, and Java programming languages, adept at leveraging cutting-edge web development techniques and search engine optimization strategies to deliver superior outcomes. Demonstrated ability to combine technical expertise with creativity to produce compelling digital experiences that engage users and drive business results.

WORK EXPERIENCE

WEBSITE DEVELOPER AND DESIGNER   2022 - Present
What U Wear, Dhaka

As a Website Developer and Designer at What U Wear in Dhaka since 2022, I've played a pivotal role in the creation and enhancement of the company's online presence. Through meticulous design and proficient development skills, I've contributed to the development of https://whatuwearbd.com/, ensuring it not only reflects the brand's identity but also offers a seamless user experience.

Freelancer   2021 - 2023
Fiverr

With extensive experience in freelance web design and development via Fiber, I've delivered tailored solutions for numerous clients. My expertise lies in crafting visually appealing and functional websites, utilizing cutting-edge technologies to consistently exceed expectations and ensure client satisfaction.

PROJECT EXPERIENCE

FIFOF WEBSITE DEVELOPMENT
In 2023, I developed an E-commerce website for FIFOF in Cox's Bazar. The site, akin to their current https://fifof.com/, reflects their brand identity and offers seamless user experience, enhancing their online presence.

Pixel Fix Studio WEBSITE DEVELOPMENT
As the lead developer for "Pixel Fix Studio" Graphic Agency's website project, I crafted a visually captivating and user-friendly website, akin to their current site at https://pixelfixstudio.com/.
- Designing and developing the website.
- Implementing responsive design principles.
- Integrating features like portfolio showcase and contact forms.

ACADEMIC BACKGROUND

Diploma in Engineering (Computer Science and Technology)   Present
Cox's Bazar Polytechnic Institute
